APPLICATION FOR PERMIT

TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of first receipt and filing in State Engineer's office FEB 5 1912
Returned to applicant for correction FEB 5 1912
Corrected application filed MAR 27 1912

The undersigned C. C. Turner,
Name of applicant
of Wellington, County of Lyon,
State of Nevada, hereby makes application for
permission to appropriate the public waters of the State of Nevada,
as hereinafter stated. (If applicant is a corporation give date and
place of incorporation.)

1. The source of the proposed appropriation is Walker River,
Name of stream, lake, or other source.
2. The amount of water applied for is Three (3) second-feet.
One second-foot equals 40 miners' inches.
3. The water to be used for Irrigation.
Irrigation, power, mining, manufacturing, domestic, or other use.
4. The water is to be diverted from its source at the following
point: NW $\frac{1}{4}$ of NE $\frac{1}{4}$ Sec. 10, T. 10, N.R. 23 E., M.D.B. & M.
Describe as being within a 40-acre subdivision of public survey, or by course and distance to a section corner. If on unsurveyed land it should be so stated.

IF THE WATER IS TO BE USED FOR IRRIGATION, SUPPLY THE FOLLOWING INFORMATION:

- (a) Number of acres to be irrigated is 120
- (b) Description of land to be irrigated The East half of the
SE $\frac{1}{4}$ Sec. 34 T. 11 N.R. 23 E., and that portion of NW $\frac{1}{4}$ Sec. 2,
Describe by legal subdivision, or if on unsurveyed land it
should be so stated and a description provided in accordance with special instruction from the State Engineer when application is returned for correction.
T. 10 N.R. 23 E., laying west of Walker River and below Simpson Colony Reclamation Co., canal, said water being carried
through Simpson Canal.
- (c) Irrigation will begin about April Month and end about
September Month, of each year.

IF WATER IS TO BE USED FOR POWER, MINING, TRANSPORTATION, OR OTHER USE, SUPPLY THE FOLLOWING INFORMATION:

- (d) Power to be developed is _____ horse power.
- (e) Works to be located
Give 40-acre subdivision on which works will be located, or locate by course and distance to a section corner.
- (f) Point of return of water to stream
Describe in same manner as point of diversion.
- (g) Remarks This appropriation was made and used upon a part of
the above described land in the year 1882 and all that is
required in the State Engineer's office is that the point of
diversion has been changed to the head-gate of the Simpson
Canal.

DESCRIPTION OF PROPOSED WORKS

By Ditches.

State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits. If water is to be stored in reservoirs it should be so stated and the location of the reservoir should be given with reference to the legal subdivisions.

5. Estimated cost of works \$1500.00
6. Estimated time required to construct works: already constructed.
7. Remarks _____

For use of applicant.

C. C. TURNER, Applicant.

_____, Engineer.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is approved with the express understanding that there will not be claimed more water than was allowed for the land than was allowed by State Engineer Thurtell as shown in his amended findings of claims to the waters of the Walker River and its tributaries. The finding in regard to the lands of the applicant herein for change in point of diversion is for thirty two acres with a priority of 1884, and an allowance of water for one half second foot. Reference is made to Proof No. 0484, records of State Engineer.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed one half cubic feet per second.

Actual construction work shall begin on or before May 1st, 1913.

Proof of commencement of work shall be filed before June 1st, 1913.

Work must be prosecuted with reasonable diligence and be completed on or before October 1st, 1913.

Application of water to beneficial use shall be made on or before November 1st, 1913.

Proof of the application of water to beneficial use must be filed with the State Engineer on or before December 1st, 1913.

WITNESS MY HAND AND SEAL this 1st day of November, 1912.

Map filed MAR 27 1912

Proof of labor filed MAY 31 1913

W.W. Kearney
State Engineer.

Proof of beneficial use filed JUN 30 1913

Map filed JUN 30 1913

Abrigated By 39263

Certificate No. 429

Issued May 5, 1913.

SUPPLEMENTAL APPROVAL

A sufficient showing having been made to the State Engineer that the approval of this application, No. 2331, limiting the permit to change in the point of diversion only, is not in accordance with the intent of the application, and in as much as the publication of the application reads as an application to appropriate additional water, the permit is hereby modified as follows:-

APPROVAL OF STATE ENGINEER.

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

The amount of water named herein below is granted in addition to the amount allowed in the findings made by Henry Thurtell, Master in Chancery, (Proof No. 0484) all of which may be diverted and used through the Simpson Ditch.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.88 cubic feet per second.

Actual construction work shall begin on or before Already begun.

Proof of commencement of work shall be filed before Already filed.

Work must be prosecuted with reasonable diligence and be completed on or before Already completed.

Application of water to beneficial use shall be made on or before November 1, 1914.

Proof of application of water to beneficial use must be filed with State Engineer on or before December 1, 1914.

WITNESS MY HAND AND SEAL this 25th day of November, 1913.

W.M. Kearney
State Engineer.
